

Rakegate Primary School - SCIENCE Progression in skills—Working Scientifically

	<p>EYFS</p>	<p>Year 1 and 2</p>	<p>Year 3 and 4</p>	<p>Year 5 and 6</p>
 <p>Working Scientifically</p>	<p>I can choose the resources I need for chosen activities and say when I do or don't need help.</p> <p>I know about similarities and differences in relation to places, objects, materials and living things.</p> <p>I can observe animals and plants.</p> <p>I can explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.</p> <p>I can select and use technology for particular purposes.</p> <p>I can represent my own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.</p> <p>I can talk about the features of my own immediate environment and how environments may vary from one another</p> <p>I can explain why some things occur and talk about changes.</p>	<p>I can ask simple questions and recognise that they can be answered in different ways</p> <p>I can observe closely, using simple equipment</p> <p>I can perform simple tests</p> <p>I can identify and classify a variety of objects</p> <p>I can use my observations and ideas to suggest answers to questions</p> <p>I can gather and record data to help me to answer questions</p>	<p>I can ask relevant questions and use different types of scientific enquiry to answer them</p> <p>I can set up practical enquiries, comparative and fair tests I can make systematic and careful observations, and, where appropriate, take accurate measurements in standard units using a range of equipment, including thermometers and data loggers</p> <p>I can gather, record, classify and present data in a variety of ways to help answer questions</p> <p>I can record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts and tables</p> <p>I can use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions</p> <p>I can report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</p> <p>I can identify differences, similarities or changes related to simple scientific ideas and processes</p> <p>I can use straightforward scientific evidence to answer questions or to support my findings</p>	<p>I can plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary</p> <p>I can take measurements, using scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate</p> <p>I can record data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs line and bar graphs</p> <p>I can use test results to make predictions to set up further comparative and fair tests</p> <p>I can report and present findings from enquiries, including conclusions, casual relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations</p> <p>I can identify scientific evidence that has been used to support or refute ideas or arguments</p>

Rakegate Primary School - SCIENCE Progression in knowledge—Animals including Humans

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Animals including Humans	<p>Identify and name a variety of common British animals that are birds, fish, amphibians, reptiles, mammals and invertebrates</p> <p>Identify and name a variety of common animals that are carnivores, herbivores and omnivores</p> <p>Describe and compare the structure of a variety of common animals (birds, fish, amphibians, reptiles, mammals and invertebrates, and including pets)</p> <p>Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense</p>	<p>Know that animals, including humans, have offspring which grow into adults</p> <p>Describe the basic needs of animals, including humans, for survival</p> <p>Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</p>	<p>Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat</p> <p>Identify that humans and some animals have skeletons and muscles for support, protection and movement.</p>	<p>Describe the simple functions of the basic parts of the digestive system in humans</p> <p>Identify the different types of teeth in humans and their simple functions</p> <p>Construct and interpret a variety of food chains, identifying producers, predators and prey.</p>	<p>Describe the changes as humans develop from birth to old age.</p>	<p>Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</p> <p>Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</p> <p>Describe the ways in which nutrients and water are transported within animals, including humans.</p>

Rakegate Primary School - SCIENCE Progression in knowledge—Plants

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Plants	<p>Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees</p> <p>Identify and describe the basic structure of a variety of common flowering plants, including trees.</p>	<p>Observe and describe how seeds and bulbs grow into mature plants.</p> <p>Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</p>	<p>Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers</p> <p>Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant</p> <p>Investigate the way in which water is transported within plants</p> <p>Explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</p>			

Rakegate Primary School - SCIENCE Progression in knowledge—Seasonal Changes

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Seasonal changes	I can observe changes across the four seasons I can observe and describe the weather associated with the seasons and how day length varies					

Rakegate Primary School -SCIENCE Progression in knowledge— Materials

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Materials	<p>Distinguish between an object and the material from which it is made</p> <p>Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock</p> <p>Describe the simple physical properties of a variety of everyday materials</p> <p>Compare and group together a variety of everyday materials on the basis of their simple physical properties.</p>	<p>Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses</p> <p>Find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</p>			<p>I can group together everyday materials based on evidence from comparative and fair tests, including their hardness, solubility, transparency, conductivity and response to magnets</p> <p>I know that some materials will dissolve in liquid to form a solution and can describe how to recover a substance from a solution I can use knowledge of solids, liquids and gases to decide how mixtures might be separated including through filtering, sieving and evaporating</p> <p>I can give reasons based on evidence from comparative and fair tests for the particular uses of everyday materials including metals, woods and plastics</p> <p>I can demonstrate that dissolving, mixing and changes of state are reversible changes</p> <p>I can explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda</p>	

Rakegate Primary School - SCIENCE Progression in knowledge—Living things and their habitats

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Living things and their habitats		<p>Explore and compare the differences between things that are living, dead, and things that have never been alive</p> <p>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other</p> <p>Identify and name a variety of plants and animals in their habitats, including micro-habitats</p> <p>Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</p>		<p>Recognise that living things can be grouped in a variety of ways</p> <p>Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</p> <p>Recognise that environments can change and that this can sometimes pose dangers to living things.</p>	<p>Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</p> <p>Describe the life process of reproduction in some plants and animals.</p>	<p>Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals</p> <p>Give reasons for classifying plants and animals based on specific characteristics.</p>

Rakegate Primary School - SCIENCE Progression in skills—Rocks

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Rocks			<p>I can compare and group together different kinds of rocks on the basis of their appearance and simple physical properties</p> <p>I can describe how fossils are formed when things that have lived are trapped within rocks</p> <p>I can recognise that soils are made from rocks and organic matter</p>			

Rakegate Primary School - SCIENCE Progression in skills—Light

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Light		<p>I can recognise that I need light in order to see things and that dark is the absence of light</p> <p>I can notice light is reflected from surfaces I can recognise that light from the sun can be dangerous and that there are ways to protect my eyes</p> <p>I can recognise that shadows are formed when the light from a light source is blocked by an opaque object</p> <p>I can find patterns in the way that the size of shadows change</p>				<p>I can recognise that light appears to travel in straight lines</p> <p>I can use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye</p> <p>I explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes</p> <p>I can use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them</p>

Rakegate Primary School - SCIENCE Progression in skills—Forces and Magnets

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Forces and Magnets			<p>I can compare how things move on different surfaces</p> <p>I can notice that some forces need contact between two objects, but magnetic forces can act at a distance</p> <p>I can observe how magnets attract or repel each other and attract some materials and not others</p> <p>I can compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials</p> <p>I can describe magnets as having two poles</p> <p>I can predict whether two magnets will attract or repel each other, depending on which poles are facing</p>		<p>I can explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object</p> <p>I can identify the effects of air resistance, water resistance and friction that act between moving surfaces</p> <p>I can recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect</p>	

Rakegate Primary School - SCIENCE Progression in skills—Sound

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Sound				<p>I can identify how sounds are made, associating some of them with something vibrating</p> <p>I can recognise that vibrations from sounds travel through a medium to the ear</p> <p>I can find patterns between the pitch of a sound and features of the object that produced it</p> <p>I can find patterns between the volume of a sound and the strength of the vibrations that produced it</p> <p>I can recognise that sounds get fainter as the distance from the sound source increases</p>		

Rakegate Primary School - SCIENCE Progression in skills—States of matter

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 States of matter				<p>I can compare and group materials together according to whether they are solids, liquids or gases</p> <p>I can observe that some materials look different or appear to disappear when they are heated or cooled and measure or research the temperature at which this happens in degrees Celsius</p> <p>I can identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature</p>		

Rakegate Primary School - SCIENCE Progression in skills—Earth and Space

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Earth and Space					<p>I can describe the movement of the Earth and other planets in relation to the sun in the solar system</p> <p>I can describe the movement of the moon in relation to the Earth</p> <p>I can describe the sun, Earth and moon as approximately spherical bodies</p> <p>I can use the idea of Earth's rotation to explain day and night and the apparent movement of the sun across the sky</p>	

Rakegate Primary School - SCIENCE Progression in skills— Electricity

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Electricity				<p>I can identify common appliance that run on electricity</p> <p>I can construct a simple series circuit and name its basic parts including cells, wires, bulbs, switches and buzzers</p> <p>I can identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop</p> <p>I can recognise that switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit</p> <p>I can recognise some common conductors and insulators and associate metals with being good conductors</p>		<p>I can associate the brightness of a lamp or volume of a buzzer with the number and voltage of cells used in the circuit</p> <p>I can compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness or buzzers and the on/off position of switches with a battery</p> <p>I can use the recognised symbols when representing a simple circuit in a diagram</p>

Rakegate Primary School - SCIENCE Progression in skills— Evolution and Inheritance

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 Evolution and Inheritance						<p>I can recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago</p> <p>I can recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents</p> <p>I can identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution</p>
